- Interior and exterior lighting
- Self-contained solar power system

## Toilet bowl:

- High-density polyethylene (HDPE)
- Anti-vandalism design
- Dirt-repellent surface

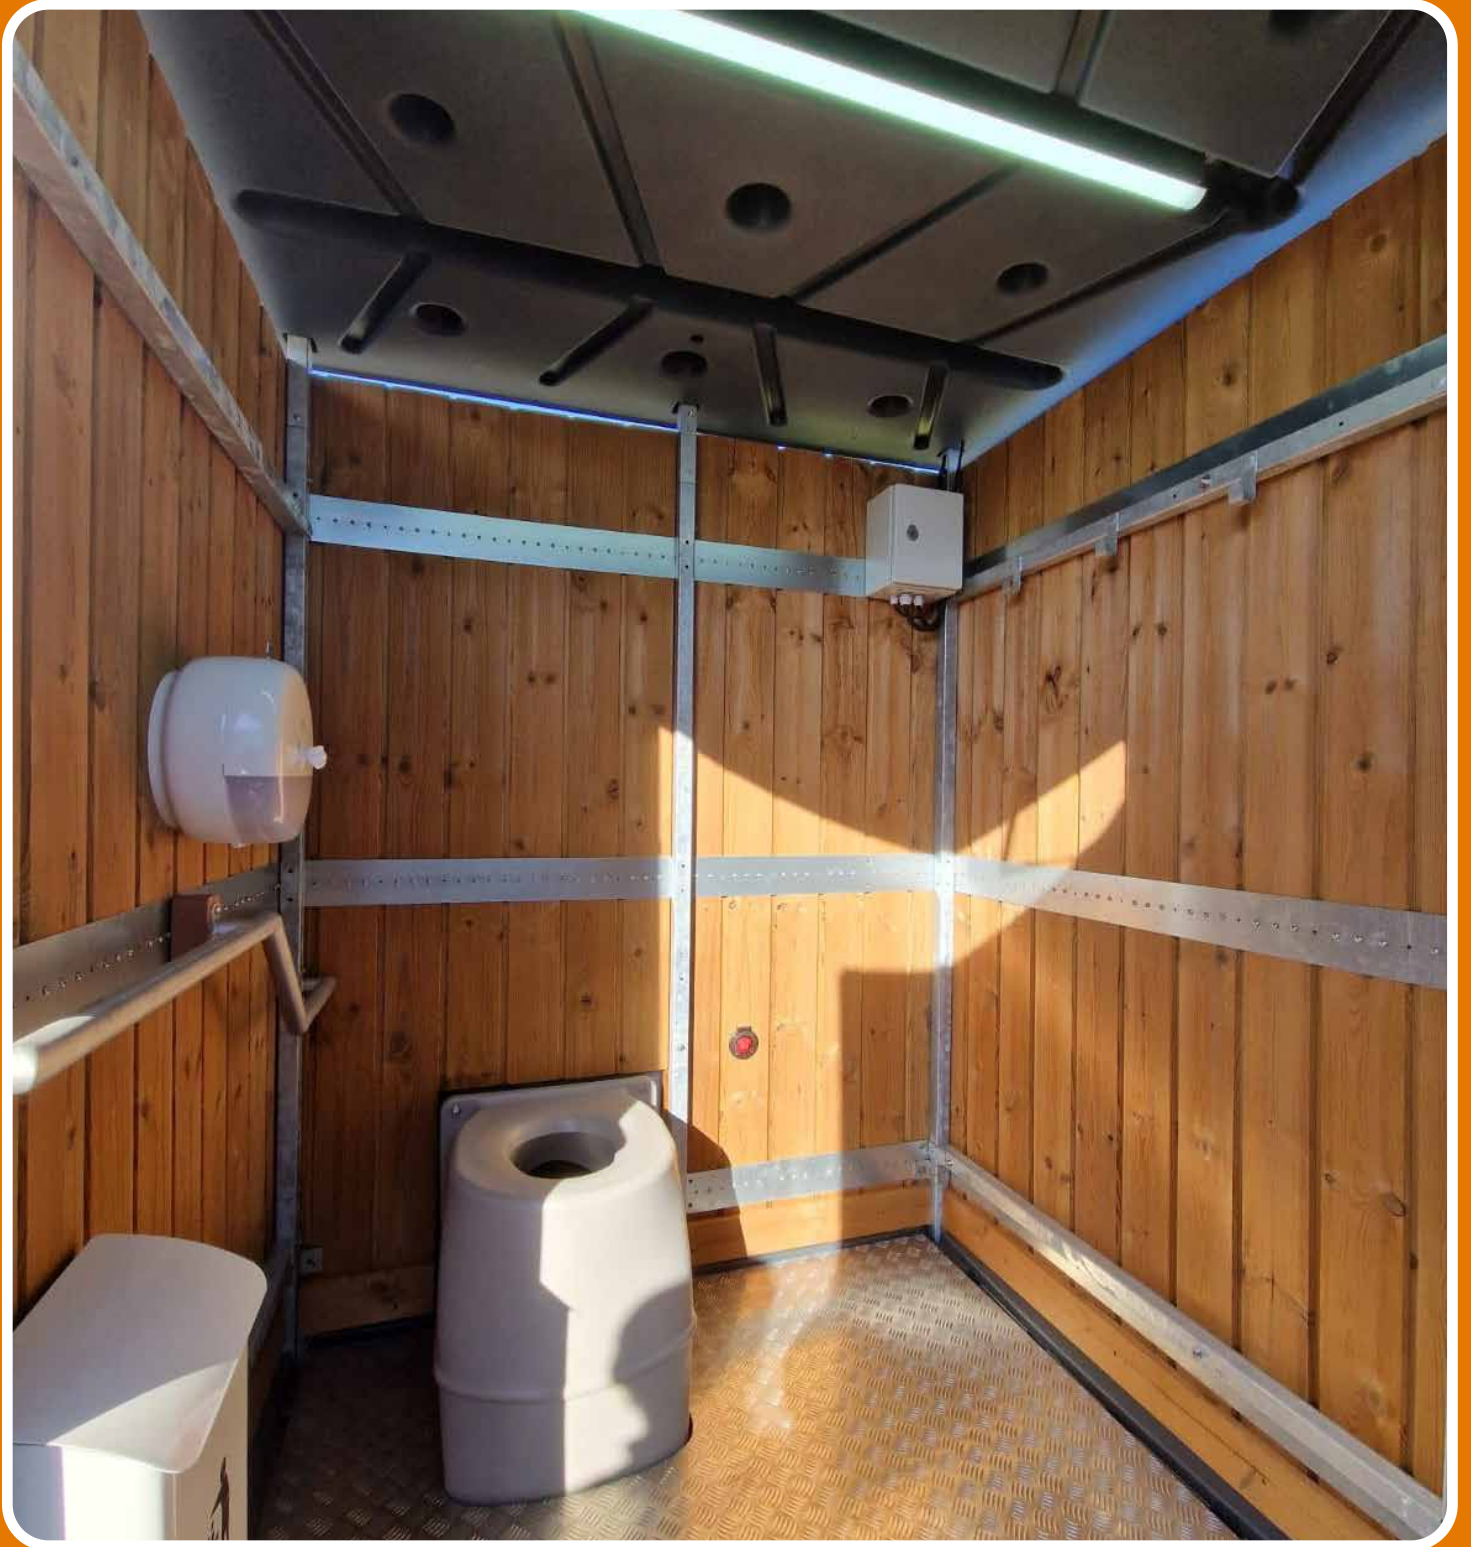

## Door closer:

- Automatic and adjustable

## URINAL MODULE (optional)

- Increases user capacity
  - PVC urinal
- 316L stainless steel protective plate
  - Self-closing door

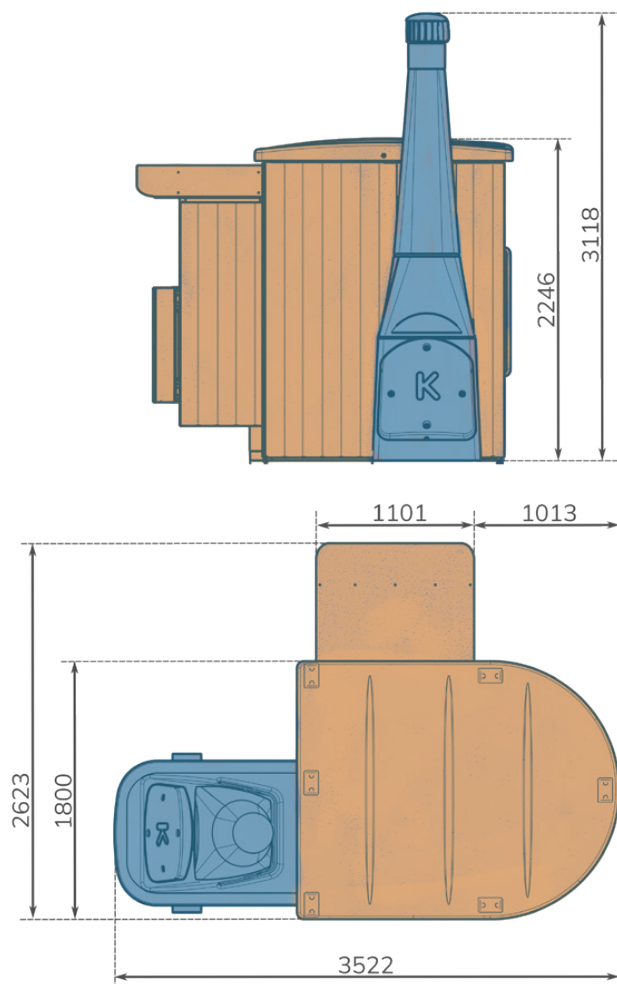

## TECHNICAL SPECIFICATIONS:

- Ecological toilet • No connection to the sewer system required
- Stand-alone solar-powered lighting • Commissioning within 48 hours
- 2-year warranty on parts and labor

# KAZUBA TOILET SYSTEM

THE SYSTEM TOILETTE KAZUBA – STK™ THIS SYSTEM USES NEITHER WATER, ELECTRICITY NOR CHEMICAL PRODUCTS, OPERATING ON WIND AND SUN ALONE. IT'S SUITABLE FOR THE MOST DEMANDING OF CONDITIONS AND CLIMATES

## HOW DOES IT WORK?

FIRST, LIQUIDS AND SOLIDS ARE SEPARATED INSIDE THE UNIT, THEN A NEAR CONSTANT CURRENT OF AIR EVAPORATES LIQUIDS AND DEHYDRATES SOLID MATTER
